### FROM THE FARM

Hickory Hill Farm is a fourth generation dairy farm owned by Watson and Lisa Dorn in historic Edgefield, SC. They collect milk from their extended family of Holsteins and bottle milk on-site five days a week. Hickory Hill Milk is all-natural, old-fashioned whole milk. It's guaranteed to be rBGH (hormone) and antibiotic free. It's processed as little as allowable for flavor, nutrients and freshness. Hickory Hill Milk is also non-homogenized, a rare find these days and a return to nostalgia when a thick layer of cream rose to the top of each bottle.

### PRODUCTS

Creamline Milk Available In:

Buttermilk

Chocolate

Whole
