FROM THE FARM

We are a diversified farm and plant nursery specializing in rare citrus types, fruiting trees, and other unique plant species including eucalyptus. We have large eucalyptus trees that we sell cut foliage to floral suppliers. We also grow some type of vegetable year-round starting with collards, cabbage, and other greens in January going thru squash, melons, and strawberries during the warmer months and then back to cold crops in the fall.

PRODUCTS

Bok Choy	Field Peas	Sweet Potatoes
Cabbage	Green Squash	Watermelon
Citrus	Oranges	Yellow Squash
